Box 1

Miscellaneous Correspondence Relating Primarily to Building Construction Alterations & Inspections, 1935-1937.

Cost Plus Work

Denver, Colo. October 28, 1935.

FOUNDATION WORK

MEMO TO-

F. J. Kirchhof Construction Co.,
Denver, Colorado.

Gentlemen:-

The Procurement Division, Public Works Branch authorizes me to request you to proceed in lowering the following footings E 11-12-13-14-E 5-E 6 & E 7 to Elevation +41-0-

Footing No. E 19 to be dependent on what the excavation in No. E 5 reveals.

All footings to remain as designed and the height effected to be corrected by concrete pedestal, (without re-inforcement,) having dimentions of one foot greater each way than the Col.Base Plates.

The wall footings effected by the lowering to remain at the present contract level, but that area effected by forming pedestals to be carefully backfilled and tamped securely below the wall foundations entering the pedestals.

The work to be performed on a cost basis, plus 10% over head, and 10% profit to you, and at present, not to exceed $1,000.00 total amount.

Respectfully,

JAMES D. OWENS,
Construction Engineer.

Ordered Footing E 19
to Elev + 46-0

Denver, Colo. October 28, 1935.
